1201 CFEC Rcpts		366.9										

The Division of Commercial Fisheries is combining six components into a single component in FY11. Consolidation of budget components will have a positive impact on the management of the Division of Commercial Fisheries. The division will be better able to facilitate expenditure and fund source authority, as well as more efficiently manage PCNs across the divisions, while administratively maintaining distinct regional management and project budgets.

This change record moves the total authority from the Southeast Region Fisheries Management component to the new Commercial Fisheries component.

Non permanent PCN 11-N08149 was established in May 2008, and then extended with a new termination date of September 30, 2009. This project is now complete and the PCN is no longer needed. Part time PCNs 11-1618 and 11-5223, and non-permanent PCN 11-N08098 are being deleted as they are excess to the needs of the division. The federal and CIP Position Cost funding associated with these positions needs to be retained to fulfill personal services funding needs within the division.												
Change Time Status of PCN 11-1112 from PPT to PFT Due to Workload Demands of the Westward Region Vessel Program												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	-1	0
PCN 11-1112 is being changed to full-time status due to work demands of the Westward Region vessel program. The R/V Resolution is at sea over 140 days per year, from April through November. During the portion of the year that the vessel is not at sea, the vessel crew repairs all fishing equipment and maintains the vessel. This includes minor repairs and major upgrades. During the last several years maintenance has been delayed because of the mandatory LWOP period for part-time employees.												
CIP Position Cost Authority to Support Alaska Sustainable Salmon Fund (AKSSF) Projects

1002 Fed Rcpts		-130.0										
1004 Gen Fund		130.0										
Federal receipts are no longer available for this Yukon River Chinook stock ID project and they are being replaced with general funds. The project applies genetic stock identification to Chinook salmon fishery harvests by collecting and analyzing individuals from commercial, subsistence, and test fisheries throughout the mainstream Yukon River. Samples from lower river commercial and/or test fisheries will be analyzed in-season.												
Successful management of mixed stock fisheries depends in large part on reliable indexes of abundance and run timing, and estimates of stock composition in the run and harvest. Since 2004, the stock composition of Chinook salmon harvests in the subsistence and commercial Chinook fisheries of the Yukon River has been obtained by genetic stock identification based on the available baseline of DNA markers. The primary application of this information is to determine the proportion of Canadian-origin Chinook salmon in fishery harvests in the U.S. waters of the Yukon River, which has ramifications for the management of fisheries both in the U.S. and Canada; there are treaty-defined goals for passage of Chinook salmon into Canada. Further, knowing the abundance of Canadian-origin Chinook salmon in-season can improve management decisions made during the fishing season. These data are also used to construct brood tables and make run size projections.												
Transfer Excess I/A Receipt Authority from Commercial Fisheries to State Subsistence for the Donlin Creek Project												
	Trout	-106.0	-106.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1007 I/A Rcpts		-106.0										

The Division of Commercial Fisheries has excess Inter-Agency (I/A) receipts authority that is being transferred to the Division of Subsistence. Subsistence's Northern Region is in negotiations with the Department of Natural Resources (DNR) for work on the Donlin Creek project for FY11. The division does not

Part-time PCN 11-5119, a Fish and Wildlife Technician II, is excess to the needs of AYK Region and is being transferred to the Division of Wildlife Conservation, Wildlife Conservation Special Projects component.												
Federal ARRA Authority to Support Algal Production at the Alutiiq Pride Hatchery												
	Inc	50.0	0.0	0.0	50.0	0.0	0.0	0.0	0.0	0	0	0
1212 Fed ARRA		50.0										
The Division of Commercial Fisheries requested FY10 ARRA federal authority in December 2009 through the Legislative Budget and Audit committee for calendar year (CY) 2010 operating costs at Alutiiq Pride Hatchery. The amount of the original request is \$150,017 beginning January 1, 2010. The RPL request enables the division to receive ARRA funding from the Department of Agriculture to support algal production at the Alutiiq Pride Hatchery. It is anticipated that the majority of these funds will be spent prior to July 1, 2010. However, in the event that algal production is delayed, or other factors, then the division is seeking ARRA authority in the FY11 operating budget in order to continue spending the funds for CY 2010 costs.

Federal Authority for Bering Sea Crab Research and Crab Rationalization Programs, and Reduce Excess Other Funds												
	FndChg	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1002 Fed Rcpts		400.0										
1018 EVOSS		-250.0										
1108 Stat Desig		-150.0										

This fund source change will provide federal authority necessary to receive additional grant funds to support the Bering Sea Crab Research and Crab Rationalization programs in the Westward Region.

The Bering Sea Crab Research grant is funded in FY10 with approximately \$1 million in federal receipts, and according to National Marine Fisheries Service, the program is expected to receive a \$300.0 increase in FY11. These additional funds will support a St. Matthew Island blue king crab pot survey. Funding for that survey does not exist in the FY10 federal grant.

The department has been advised that the federally funded Crab Rationalization Program is also increasing by nearly \$300.0. The department is proposing that these funds be used to fund additional observer coverage in Bering Sea crab fisheries.												
Upon careful review of known FY11 federal projects, the department believes they can fully book these new amounts by increasing federal receipt authority by \$400.0.												
Unrelated excess SDPR and EVOSS fund source authority is available and is reduced to make this a net zero transaction.

ADN 11-0-0336 Transfer Test Fish authority from CF Westward Region to SE Region to support Chinook salmon project												
	Trin	90.0	0.0	0.0	90.0	0.0	0.0	0.0	0.0	0	0	0
1109 Test Fish		90.0										
Test Fish receipt authority is being transferred from Westward Region Fisheries Management component to the Southeast Region Fisheries Management component to support a Chinook salmon test fishery. This change allows implementation of an in-river test fishery for Chinook salmon on the Taku River by U.S. fishermen. This test fishery has been conducted in the past by the Canadian Department of Fisheries and Oceans on their side of the border. This situation has created concern among American fishermen because the value of the catch is going to Canada even at times when Americans are not allowed to fish. Turning this project into a U.S. operated one would also help ensure that tags from the mark-recapture project, which are caught in the test fishery, are all returned and are returned on time. An increase in Southeast Region test fish receipt authority of \$90.0 would allow for the maximum harvest of about 1,400 fish weighing 16 lbs per fish and selling for about \$4 per lb.												
ADN 11-0-0331 Transfer GF from Central Region to SE Region to support assessment projects												
	Trin	138.7	0.0	0.0	138.7	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		138.7										
Beginning in FY10, the federally-funded Anadromous Salmon Research grant in the Southeast Region Fisheries Management component has been cut. This grant had a 50/50 match requirement. Since the General Fund Match (GFM) associated with this grant is no longer required in the Southeast Region												

Change Record Detail - Multiple Scenarios With Descriptions

Department of Fish and Game

Component: Southeast Region Fisheries Management (2167)
RDU: Commercial Fisheries (143)

Scenario/Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	PFT	PPT	NP
Fisheries Management component, some of the GFM is being transferred to the Central Region Fisheries Management component to support the Alaska Sustainable Salmon Fund (AKSSF) Program in that region. That program requires a general fund match starting in FY10. The balance of GFM authority within the Southeast Region Fisheries Management component will remain in that region to support new AKSSF projects.												
The loss of the federal funds represents a cut to a variety of important assessment projects in Southeast Alaska. In order to not lose these management projects, General Fund is being transferred in from the Central Region Fisheries Management component in exchange for GFM.												
ADN 11-0-0330 Transfer GF Match from SE Region to Central Region to support match requirements for AKSSF projects												
	Trout	-238.7	0.0	0.0	-238.7	0.0	0.0	0.0	0.0	0	0	0
1003 G/F Match		-238.7										
General Fund Match (GFM) is being transferred from the Southeast Region Fisheries Management component to the Central Region Fisheries Management component due to new match requirements in the Alaska Sustainable Salmon Fund (AKSSF) program beginning in FY10. This GFM is available for transfer from the Southeast Region Fisheries Management component due to the recent loss of federal funds for the Anadromous Salmon Research grant, which had a 50/50 match requirement. GFM excess to the needs of the Southeast Region Fisheries Management component is being transferred to the Central Region Fisheries Management component.												
Beginning in FY10, numerous Central Region projects will be funded through the AKSSF, which require a general fund match. The GFM transferred from the Southeast Region Fisheries Management component will fund various projects, including Susitna Sockeye Salmon, Yentna Sonar Error Estimation, Yentna Fish Wheel, Kenai River Smolt Abundance, Nushagak Chinook Genetics, and Improve Salmon Forecasting.												
ADN 11-0-0333 Transfer GF from Southeast Region to Headquarters Fisheries Management to fund rockfish projects												
	Trout	-53.0	0.0	-20.0	-33.0	0.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		-53.0										
Prior to FY09, the federal Extended Jurisdiction (EJ) grant provided division funding for a variety of projects, including rockfish research. In the Southeast Region, the demersal shelf rockfish program was allocated funding every two years to conduct biennial submersible-based stock assessment surveys. Through the federally-funded grant, project adjustments such as this were accomplished easily by the grant's principal investigator each year as grant project objectives were planned.												
In FY09, the EJ grant and several other federally-funded grants were cut and replaced with general funds. General fund increments were based on current FY08 allocations by region of the federal funds. Off-year research funds provided to the Southeast Region in FY09 are not required in that region in FY10. Therefore, general funds are being transferred to the Headquarters Fisheries Management component to support groundfish research. In the Headquarters Fisheries Management component, two PCNs will be partially funded with this general fund transfer (one month of PCN 11-5299 and two months of 11-6139) to support rockfish research.												
ADN 11-0-0329 Transfer vacant PPT PCN 11-1787 from CF Southeast Region to Commissioner's office												
	Trout	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	-1	0
The department transferred vacant PPT PCN 11-1787, a Petersburg Fish and Wildlife Technician II in the Division of Commercial Fisheries, to the Commissioner's office. This position was no longer needed in Commercial Fisheries and would have been deleted. A re-class was completed at the same time to an Assistant Commissioner and was accomplished by FY09 revised program (ADN 11-9-0723). A separate change record shows the re-class of the position.												
ADN 11-0-0334 Transfer PCN 11-1629 from CF Southeast Region to HQ Fisheries Management for staffing needs

1004 Gen Fund		-138.7										
Beginning in FY10, the federally-funded Anadromous Salmon Research grant in the Southeast Region Fisheries Management component has been cut. This grant had a 50/50 match requirement. Since the General Fund Match (GFM) associated with this grant is no longer required in the Southeast Region Fisheries Management component, some of the GFM is being transferred to the Central Region Fisheries Management component to support the Alaska Sustainable Salmon Fund (AKSSF) Program in that region. That program requires a general fund match starting in FY10. The balance of GFM authority within the Southeast Region Fisheries Management component will remain in that region to support new AKSSF projects.												
The loss of the federal funds represents a cut to a variety of important assessment projects in Southeast Alaska. In order to not lose these management projects, General Fund is being transferred in from the Central Region Fisheries Management component in exchange for GFM.												
ADN 11-0-0337 Transfer GF from Central Region to Westward Region to fund rockfish & scallop projects												
	Trout	-80.0	0.0	0.0	0.0	-50.0	-30.0	0.0	0.0	0	0	0
1004 Gen Fund		-80.0										
A transfer out of \$80.0 in general fund from the Central Region Fisheries Management component is being moved to the Westward Region Fisheries Management component. The purpose of this transfer is to support ongoing camera based scallop stock assessment supervised by the biometrician in the Kodiak office and to fund a rockfish project. This is a re-allocation of scallop and rockfish project funds that were directed to the Central Region Fisheries Management component for FY09 to meet project costs that were higher for that year to support research.												
ADN 11-0-0370 Transfer of funds needed to align services and commodities according to spending plan

	Trout	-90.0	0.0	0.0	-90.0	0.0	0.0	0.0	0.0	0	0	0
1109 Test Fish -90.0												
Test Fish receipt authority is being transferred from Westward Region Fisheries Management component to the Southeast Region Fisheries Management component to support a Chinook salmon test fishery. This change allows implementation of an in-river test fishery for Chinook salmon on the Taku River by U.S. fishermen. This test fishery has been conducted in the past by the Canadian Department of Fisheries and Oceans on their side of the border. This situation has created concern among American fishermen because the value of the catch is going to Canada even at times when Americans are not allowed to fish. Turning this project into a U.S. operated one would also help ensure that tags from the mark-recapture project, which are caught in the test fishery, are all returned and are returned on time. An increase in Southeast Region test fish receipt authority of \$90.0 would allow for the maximum harvest of about 1,400 fish weighing 16 lbs per fish and selling for about \$4 per lb.

This vacant Fish and Wildlife Technician II position in Juneau is unneeded and is being transferred from the Division of Commercial Fisheries to the Division of Administrative Services. The position is being reclassified to a Program Coordinator to lead the department's Workforce Development program via a separate change record.												
ADN 11-0-0333 Transfer GF from Southeast Region to Headquarters Fisheries Management to fund rockfish projects												
	Trin	53.0	18.7	2.8	23.2	8.3	0.0	0.0	0.0	0	0	0
1004 Gen Fund		53.0										
Prior to FY09, the federal Extended Jurisdiction (EJ) grant provided division funding for a variety of projects, including rockfish research. In the Southeast Region, the demersal shelf rockfish program was allocated funding every two years to conduct biennial submersible-based stock assessment surveys. Through the federally-funded grant, project adjustments such as this were accomplished easily by the grant's principal investigator each year as grant project objectives were planned.												
In FY09, the EJ grant and several other federally-funded grants were cut and replaced with general funds. General fund increments were based on current FY08 allocations by region of the federal funds. Off-year research funds provided to the Southeast Region in FY09 are not required in that region in FY10. Therefore, general funds are being transferred to the Headquarters Fisheries Management component to support groundfish research. In the Headquarters Fisheries Management component, two PCNs will be partially funded with this general fund transfer (one month of PCN 11-5299 and two months of 11-6139) to support rockfish research.												
ADN 11-0-0334 Transfer PCN 11-1629 from CF Southeast Region to HQ Fisheries Management for staffing needs												
	Trin	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	1	0
The Headquarters' Mark, Tag and Age Laboratory was restructured in the spring of 2009 and added two crew leader positions to the lab. These are Fish and Wildlife Technician IV positions. Southeast region PCN 11-1629 was unneeded and is being transferred to the Commercial Fisheries Headquarters Fisheries Management for one of the crew leader positions.												
ADN 11-0-0341 Reclassification of PCN 11-1629 from a range 9 to a range 13												
	PosRecl	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
In ABS, PCN 11-1629 is incorrectly identified as a Fish and Wildlife Technician II, range 9, while both AKPAY and the On-Line Position Description (OPD) program had it identified correctly as a FWT-V, range 14. Therefore, to reclassify this PCN to a FWT-IV required a downward range change from a 14 to a 13, which was approved March 3, 2009. The Division of Personnel did not require OMB's approval given the downward range change. This change record

The Division of Commercial Fisheries is combining six components into a single component in FY11. Consolidation of budget components will have a positive impact on the management of the Division of Commercial Fisheries. The division will be better able to facilitate expenditure and fund source authority, as well as more efficiently manage PCNs across the divisions, while administratively maintaining distinct regional management and project budgets.												
This change record moves the total authority from the Headquarters Fisheries Management Component to the new Commercial Fisheries component.

	Trout	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	-1	0	0
The department re-classed and transferred vacant PCN 11-0077, a Federal Management Research Coordinator range 23 in the Division of Commercial Fisheries, to a Special Project Assistant range 17 in the Commissioner's office. This position was no longer needed in Commercial Fisheries as a separate Program Coordinator position has taken over the duties of the Pacific Coastal Salmon Recovery Fund (PCSRF) program. The re-class and transfer was accomplished by an internal FY09 revised program (ADN 11-9-0919).												
ADN 11-0-0343 Transfer PPT PCN 11-1706 from CF Special Projects to Sport Fisheries to align with funding												
	Trout	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	-1	0
Fish and Wildlife Technician III PCN 11-1706 has been almost fully funded by the Sport Fisheries Division for the last year and has not worked for the Commercial Fisheries Division. This transfer will move the PCN to where it is funded.												
ADN 11-0-0345 Transfer PFT PCN 11-1819 from CF Special Projects component to Administrative Services

Scenario/Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	PFT	PPT	NP
then exchanged for Federal receipt authority. Originally, a General Fund increment was added to the FY10 Governor's budget to fund the Bering Sea Crab Research grant and was then decremented in the Governor's Amended budget. This Federal receipt authority more appropriately belongs in the Special Projects component and is being transferred there.												
ADN 11-0-0339 Transfer out 3 PFTs and 1 PPT from CF Westward region to Special Projects due to funding changes												
	Trin	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	3	1	0
Full time PCNs 11-1006, 11-1351 and 11-1432, and part-time PCN 11-1409 are being transferred from the Westward Region Fisheries Management component to the Commercial Fisheries Special Projects component due to funding changes associated with the federal Bering Sea Crab Research grant.												
ADN 11-0-0344 Time status changes from PPT to PFT for PCNs 11-1254 and 11-1744												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	2	-2	0
PCNs 11-1254 and PCN 11-1744 are being changed to full time status due to increases in workload within the Mark, Tag and Age Laboratory.												
PCN 11-1254 is a Fishery Biologist II who provides biological support to a variety of programs including: project leader for the Coded Wire Tag Lab, coordinator for Southeast Region for herring age, weight, and length data collection, egg calibration, analysis and verification of data, and resolves all tag reading and herring scale aging problems.												
PCN 11-1744 has been reclassified to a Fish and Wildlife Technician IV and will serve as crew leader in the Thermal Mark and Historical Scale lab. The position serves as the day-to-day laboratory supervisor and leads the other lower level fish and wildlife technicians.												
ADN 11-0-0353 Reclassification of PCN PT 11-5242 from range 11 to range 14												
	PosRecl	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
Part-time PCN 11-5242 is being re-classified from a Fish and Wildlife Technician III (FWT-III) to a Fishery Biologist I (FB-I). This reclassification is required due to a change in duties that require expertise at the FB-I level. The duties for this position were expanded as part of a reorganization within the Groundfish project in Petersburg. Expanded duties include being the Petersburg contact person for questions on groundfish fisheries and regulations, editing and batching a high percentage of the Southeast Alaska groundfish fish tickets, preparation of sampling and longline gear for sablefish surveys, crew leader on board longline survey vessels, hiring, training, and supervising a Fish and Wildlife Technician II, and directing and participating in the port sampling of the Northern Southeast Inside sablefish fishery. The Fishery Biologist I job class more accurately describes these responsibilities.												
ADN 11-0-0380 Add two college intern positions to CF Special Projects												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	2
The Gene Conservation Laboratory typically hires college interns to expose them to the advanced research activities and equipment that occurs within the lab. This change record will add two college intern positions consistent with annual staffing plans.

Increase federal authority to support a coded wire tag project and a stock composition estimation project												
	Inc	318.4	0.0	0.0	318.4	0.0	0.0	0.0	0.0	0	0	0
1002 Fed Rcpts		318.4										

The Commercial Fisheries Division was recently informed that National Marine Fisheries Service (NMFS) will be increasing the Pacific Salmon Treaty (PST) grant for Southeast Alaska by \$392.2. Of this amount, \$179.8 will be allocated to Commercial Fisheries and the balance of \$212.4 to the Sport Fish Division. Commercial Fisheries will utilize the \$179.8 to support port sampling projects and enhance coded wire tag projects within the Mark, Tag and Age Lab. These programs already exist within the PST grant, and these funds will enhance those activities. The Sport Fish Division has sufficient federal authorization and is not seeking an increase.

The Commercial Fisheries Division was also recently informed that the Pacific Salmon Commission Chinook Letter of Agreement program will be providing \$138.6 in federal funds for a project to estimate stock composition of Southeast Alaska harvests. These funds will be allocated to the Genetics Lab to conduct this work.

Since grant applications have yet to be completed, line item detail is not available. This authority will be spread in the FY11 Management Plan.

1002 Fed Rcpts		250.0										

Federal receipt authority is needed for grant funding levels during FY10 from the U.S. Fish & Wildlife Service for Pittman/Robertson (PR) Wildlife Restoration and Hunter Education programs. The FY10 grant agreements for PR funding for these ongoing statewide programs has been awarded. The division will address field survey and research work for biologists and technicians statewide. The division strives to keep its staff levels constant in order to maintain service levels to the public.

ADN 11-0-0348 Transfer 2 PFT and 6 PPT positions from Wildlife Conservation Special Projects to Wildlife Conservation												
Trin		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	2	6	0

Two full-time and six part-time positions are transferred from the Wildlife Conservation Special Projects component and will be counted in the Wildlife Conservation component. The six positions are best represented by funding budgeted in the Wildlife Conservation component.

11-2229, Biometrician III - Juneau - PFT
11-6009, Habitat Biologist III - Fairbanks - PFT

11-2227, Wildlife Biologist I - Juneau - PPT
11-2253, F&W Technician IV - Juneau - PPT
11-4004, Statistical Technician II - Juneau - PPT

1002 Fed Rcpts		3,500.0										
Funding through the Pittman-Robertson Wildlife Restoration program is available through an annual grant agreement from the U.S. Fish & Wildlife Service. The program receives its receipts from federal excise taxes on guns and firearms. Sales nationwide on guns and firearms increased dramatically over the past twelve months. Funds collected are distributed to states annually for propagation and management of wildlife.												
The Division has increased its efforts to accomplish wildlife population surveys and field research starting in FY07 and continuing through FY09. Funding was appropriated through two CIP appropriations for Game Management, one in FY07 and one in FY08. The appropriations, although technically capital, have funded operating projects for the division. Once the appropriations are expended, the work supported by the funding cannot be supported. The appropriations total \$3.6 million and will be 85% spent by the end of FY10. The increased effort by regional biologists over the past 2 years can be maintained into FY11 by an increase of federal spending authority to this component.												

Intensive Management Field Operations

Change Record Detail - Multiple Scenarios With Descriptions

Department of Fish and Game

Component: Wildlife Conservation (473)

RDU: Wildlife Conservation (147)

Scenario/Change Record Title	Trans Type	Totals	Personal Services	Travel	Services	Commodities	Capital Outlay	Grants, Benefits	Miscellaneous	Positions		
										PFT	PPT	NP
	Inc	250.0	20.0	10.0	200.0	20.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		250.0										

This increment provides funds to carry out focused predator management by the division in game management units (GMU) identified by the Board of Game under the Intensive Management (IM) statute. Teams of division employees specifically address low ungulate populations through the reduction of predators to accomplish the board's reduction objectives, directed by the IM statute.

The division engaged in three state-sponsored predator reduction operations during FY09; GMU 12 and 20E (north of Tok), and the Southern Alaska Peninsula Caribou Herd (SAPCH), and Unit 16 Bears. The operational costs were paid by one-time CIP appropriations. Recent field operations for predator control by the division reveals operating costs between \$100.0 and \$125.0 for a two to three week effort in each area. Three operations will be active during FY11, each necessitating helicopter support costs between \$50.0 and \$100.

Endangered Species Act Listings Coordination

	Inc	236.6	81.6	20.0	125.0	10.0	0.0	0.0	0.0	0	0	0
1004 Gen Fund		236.6										

This increment allows the state to become more involved in aspects of the federal Endangered Species Act (ESA) process including involvement in the development of recovery plans, the incidental take of listed species, and Section 7 permit consultation processes. It also provides funds to support, through reimbursable services agreements (RSAs), necessary consultations with the Departments of Natural Resources, Environmental Conservation, and Commerce, Community, and Economic Development. Finally, it supports inflationary costs to support the Department of Law involvement in the ESA program.

Congress passed the ESA as a tool to assure that species would not go extinct. It was meant as the ultimate safeguard and has been used successfully to prevent species extinctions, especially in cases where the threats to species survival are easily identifiable and manageable. An example was the Aleutian Canada Goose, where the main threats were over-harvest and predation by foxes, both of which were easily identifiable and manageable. This species was recovered and removed from the ESA. Up until recently, the act has been sparingly used in Alaska.

However, in the last several years, more species in Alaska have been listed including the polar bear and beluga whales in Cook Inlet. These species were listed based on assumed projections of decline associated with anticipated climate change or population trends over long periods. Also, new listing reviews have been initiated for the Yellow-billed loon, Kittlitz's murrelet, marbled murrelet, four species of ice seals, Pacific walrus, and Southeast Alaska herring.

Once a decision is made to list a species, the ESA specifies that critical habitat must be designated. This requires balancing biologic needs associated with species recovery against economic issues. A recovery plan must be prepared that specifies recovery objectives and research needs. Also, federal consultations occur on any project that has a federal nexus or results in a take of a listed species.

Personnel funding will be used to support PCN 11-1387.

Inter-Agency Receipts for Steller Sea Lion Studies												
	Inc	500.0	165.0	15.0	270.0	50.0	0.0	0.0	0.0	0	0	0
1007 I/A Rcpts		500.0										
The division studies the Steller sea lion focusing on the lack of recovery of its population in Alaskan waters. The division will initiate multi-year research to assess the alternative hypothesis for the lack of recovery retrospective analysis of diet, contaminants and disease assessment and their impacts on the future survival and reproductive rate of Steller sea lions in four regions of Alaska. Funding from the Division of Commercial Fisheries will be received via RSA.												
Expected outcomes of this research includes:												
a) Model estimation of diet composition of over 700 sea lions from four regions.												
b) Determination of persistent organochlorine contamination in 150 sea lions.												
c) Determination of heavy metal contamination in hair from 200 sea lions.												
Benefits of this research includes:												
a) Outline important prey species for Steller sea lions in different seasons and across different regions of Alaska to enable more informed fisheries management policy.												
b) Identify alternate hypothesis (contaminant exposure, disease, trauma, etc) that could be contributing to age specific survival rates and ultimately lack of recovery of Steller sea lions in Alaska.

1002 Fed Rcpts		425.0										
1018 EVOSS		-150.0										
1024 Fish/Game		50.0										
1061 CIP Rcpts		-275.0										
1108 Stat Desig		-50.0										
A technical update to this component is needed to reconcile funding sources for FY11 for restricted revenue categories. The division projects less receipts available from CIP Receipts and EVOS. This reverses a trend from the past two years where these sources where increased. Funding from the EVOS Trustee Council for Harlequin Duck research in FY11 was not funded as of November 2009. The division has used CIP appropriations from FY07-10 to support wildlife survey work, the appropriations will be mostly expended by the end of FY10.												
Federal receipts need to be increased due to the award of a five-year grant from the Minerals Management Service for Walrus Studies in the Chukchi Sea. This project will involve the deployment of satellite tags on walrus to study their movement. Funding through the Pittman-Robertson Wildlife Restoration program is budgeted in this component to support the indirect expenditures by the Division of Wildlife Conservation. Significant increases of available federal funds from this source requires the budgeting of indirect receipts.												
Additional Fish & Game Funds will be spent to serve as match for federal Pittman-Robertson funding spent in this component.												
Transfer Seasonal PCN 11-2202 from Wildlife Conservation Special Projects to Wildlife Conservation

Correct Fish and Game Fund Revenue Accounting for Shooting Range Fees												
FndChg		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
1024 Fish/Game		-284.8										
1194 F&G Nonded		284.8										
A technical correction is needed in the Hunter Education Public Shooting Range component for Fish and Game Fund revenue accounting. The authorization from the Fish and Game Fund is related to receipt and expenditure of fees collected from patrons of the three department managed shooting ranges. The authorization is currently shown as dedicated Fish and Game Fund (code 1024); it should be shown as non-dedicated Fish and Game Fund (code 1194).

ADN 11-0-0373 Transfer PCN 11-0102 Deputy Commissioner from Anchorage to Juneau												
PosLoc		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	0
The prior Deputy Commissioner incumbent (PCN 11-0102) was based in Anchorage, but effective in January 2009 the new Wildlife Conservation Deputy Commissioner incumbent is based in Juneau. This change record transfers the position from Anchorage to Juneau.												
ADN 11-0-0342 Transfer/Reclass vacant PCN 11-0077 Special Project Asst from CF Special Projects to Commissioner's office												
Trin		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	0	0
The department re-classed and transferred vacant PCN 11-0077, a Federal Management Research Coordinator range 23 in the Division of Commercial Fisheries, to a Special Project Assistant range 17 in the Commissioner's office. This position was no longer needed in Commercial Fisheries as a separate Program Coordinator position has taken over the duties of the Pacific Coastal Salmon Recovery Fund (PCSRF) program. The re-class and transfer was accomplished by an internal FY09 revised program (ADN 11-9-0919).												
ADN 11-0-0357 Delete vacant Secretary position due to realignment of duties												
PosAdj		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	-1	0	0
A vacant Secretary position (PCN 11-0195) was deleted due to a realignment of duties.												
ADN 11-0-0329 Transfer vacant PPT PCN 11-1787 from CF Southeast Region to Commissioner's office												
Trin		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	1	0
The department transferred vacant PPT PCN 11-1787, a Petersburg Fish and Wildlife Technician II in the Division of Commercial Fisheries, to the Commissioner's office. This position was no longer needed in Commercial Fisheries and would have been deleted. A re-class was completed at the same time to an Assistant Commissioner and was accomplished by FY09 revised program (ADN 11-9-0723). A separate change record shows the re-class of the position.												
ADN 11-0-0358 Re-class PCN 11-1787 from PPT in Petersburg to PFT in Anchorage												
PosRecl		0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	1	-1	0
The department transferred vacant PCN 11-1787 from the Division of Commercial Fisheries to the Commissioner's office via a separate change record. This position was re-classed from a seasonal Petersburg Fish and Wildlife Technician II to a full-time Assistant Commissioner in Anchorage via FY09 revised program (ADN 11-9-0723). The Assistant Commissioner leads the department's efforts on abundance-based management of wildlife.

ADN 11-0-0359 Line item transfer to match proposed spending plan												
	LIT	0.0	56.8	0.0	-56.8	0.0	0.0	0.0	0.0	0	0	0
Line item transfer into personal services is necessary to reduce the vacancy factor, but the factor is not reduced to the OMB vacancy guidelines due to one position (PCN 11-1787) being paid by an unbudgeted RSA. It is anticipated that this RSA will be brought on budget in the FY11 Governor's budget. The cost of this position is approximately equal to the vacancy factor amount so technically the Commissioner's office is budgeting for a zero vacancy factor. The transfer out of the Services line item has no impact on services provided and the line item spread better matches the proposed FY10 spending plan.

Transfer Excess I/A Receipts Authority from Commercial Fisheries to State Subsistence for the Donlin Creek Project												
1007 I/A Rcpts	Trin	106.0	66.0	0.0	40.0	0.0	0.0	0.0	0.0	0	0	0
The Division of Commercial Fisheries has excess Inter-Agency (I/A) receipts authority that is being transferred to the Division of Subsistence. Subsistence's Northern Region is in negotiations with the Department of Natural Resources (DNR) for work on the Donlin Creek project for FY11. The division does not have enough I/A receipt authority to accept these DNR funds.												
Add two LTNP Subsistence Resource Specialists for the Donlin Creek Project												
	PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0	0	2
Subsistence's Northern Region is in negotiations with the Department of Natural Resources (DNR) for work on the Donlin Creek project for FY11. Two long term non-permanent Subsistence Resource Specialists will be needed to complete the work. The Inter-agency receipts for this project is handled via separate change record.												
An Index Community Approach to Estimate/Monitor Subsistence Harvests of Fish and Wildlife in Alaska												
1004 Gen Fund	Inc	200.0	152.5	35.2	0.0	12.3	0.0	0.0	0.0	0	0	0

This increment supports development of a system of representative index communities to cost-effectively monitor subsistence harvest of fish and wildlife in all areas of the state, and thereby provide critical updates needed by the state fish and game regulatory boards. Without this information, harvest data will become dated and less reliable, which may lead to regulatory restrictions to other harvest opportunities (commercial, sport, and general uses). Increment funds would provide start-up support, with future efforts anticipated to adequately support representative and timely harvest data surveys.

Due to the large number of communities and high costs, it is not possible to update comprehensive data for most communities on a regular basis. Therefore, a set of index communities will be selected to represent areas of the state. Comprehensive surveys will be conducted on a regular, rotational schedule in these communities, and results will be used to estimate total harvests in the area which the index communities represent. The program will provide annual estimates of statewide subsistence harvests and trends, including harvest quantities, locations of harvests, and numbers of harvesters and users. The program can be supplemented with special project funds to add additional communities to the on-line Community Subsistence Information System (CSIS).

Implementation of the project will proceed in two steps. Because data are lacking in key regions (interior and western) and are more than 20 years old in many of the communities in other regions, in the first two years, comprehensive surveys will be conducted to fill in gaps to support the development of a scientifically sound design for long-term annual monitoring with the index community approach. Based on currently available data in the CSIS and new data collected as part of this project, a set of communities will then be selected that represent the harvest patterns of others within their regions. Until the analysis is completed, it is not possible to state precisely how many communities will be needed or how many years will be necessary to complete a single rotation of surveys across the state. In subsequent years, comprehensive surveys will be undertaken and an annual report produced with regional and statewide harvest estimates based on the index community results.

Change Time Status of PCN 11-0458 from Full-time to Seasonal Due to Reduced Workload

PosAdj	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	0.0	-1	1	0
--------	-----	-----	-----	-----	-----	-----	-----	-----	-----	----	---	---

The Research Analyst II position is currently classified as full-time, but needs to be changed to seasonal due to workload. The reason for the reduced workload is that project work slows down in the winter and in the mid summer due to the cycle of field work and data collection.

FY2011 Health Insurance Cost Increase for Non-Covered Employees

1018 EVOSS		-140.0										
The Subsistence division needs to increase Inter-Agency (I/A) receipts authority due to the award of the Donlin Creek Project to the Department of Natural Resources. The division is handling this project as an unbudgeted RSA in FY10 due to a shortfall of I/A receipts authority, but this amendment is needed to bring the RSA on budget for FY11.												
Although not related to the project, the division does not anticipate receiving EVOSS funds in FY11, and is therefore being decreased to make this a net zero transaction.

This vacant Analyst Programmer II (range 16) position is no longer needed and is being reclassified to a Deputy Director (range 26) for the Exxon Valdez Oil Spill (EVOS) Trustee Council office. The change was approved by the EVOS Trustee Council and was effective August 1, 2009. The Deputy Director serves as backup to the Executive Director in all areas of responsibility. All EVOS positions are funded with 100 percent of EVOS funding and are based in Anchorage.

In accordance with statutes, this component collects and presents annual operating maintenance expenditures for the department's facility operations, maintenance and repair. This component currently has Inter-agency (I/A) receipts authority of \$1.3 million and additional I/A receipts authority is needed to fully report the department's operating facilities' maintenance. The additional I/A receipts authority will eliminate an unbudgeted reimbursable service agreement (RSA) that is prepared annually and submitted to OMB.

Approval was granted on 4/30/09 to relocate vacant PCN 11-1688 from Petersburg to Palmer. The workload in Petersburg office had decreased while the workload in the Palmer area office has steadily increased.												
ADN 11-0-0293 Line item transfer to match proposed spending plan												
	LIT	0.0	180.0	0.0	-180.0	0.0	0.0	0.0	0.0	0	0	0
The Division of Habitat's FY10 budget was submitted in the Alaska Budget System (ABS) requesting an additional \$180.0 in interagency (IA) receipts. This request was for anticipated funding from the Department of Natural Resources for projected gas-line projects. The \$180.0 was to fund two Habitat Biologists in the Division of Habitat for work on the proposed gas-line projects. The division allocated the \$180.0 to the personal services line in our FY10 budget proposal.												
Sometime during the FY10 budget process, the funding was inadvertently moved from personal services to the contractual line. This transfer was not the intent of our original budget request and, as such, we are requesting the \$180.0 be moved from contractual line back to personal services. If the line item transfer is not approved, we will be short-funded in personal services in FY10 creating an unacceptable vacancy factor and continuing our personal services shortfall.

Federal Receipt Authority for Helmet Creek Diesel Spill												
	Inc	100.0	45.0	45.0	3.0	7.0	0.0	0.0	0.0	0	0	0
1002 Fed Rcpts		100.0										
The Division of Habitat is seeking a FY11 federal receipts amendment because of the petroleum diesel spill that occurred in Helmet Creek on Adak Island on January 11, 2010. The additional authority will allow the division to accept National Pollution Funds Center funds from the U.S. Coast Guard and the Department of Commerce for Natural Resource Damage Assessment (NRDA) work associated with this spill. As a NRDA trustee agency, the ADF&G has been actively involved in the Helmet Creek NRDA effort thus far, including study planning and protocol development and providing logistical support and personnel for field sampling of fish, water, and sediments in Helmet Creek and a local reference stream.												
If the request for the additional federal authorization is not approved, the division will not have enough funds to remain actively engaged in this NRDA effort and thus, will be unable to satisfy our responsibilities as a NRDA trustee agency. The total federal funding is uncertain but \$100.0 is being requested as a FY10 supplemental amendment and \$100.0 as an FY11 Governor's budget amendment.
